The true teacher defends his pupils against his own personal attacks, for he espouses self-contradiction. He requires that others free themselves from the spirit to which he has been linked, to the point where he has no disciples. — Amos Amooh

Talias Zuckerman Clash on NSA At Student Council Meeting

The activities of the campus National Student Association were the focus of the Student Council meeting held on April 17, at 4:30 p.m. in the Student Union. Following the approval of the Student Council minutes, there was a discussion of the resolutions presented by the Student Council. After a brief discussion, James Hoye moved for the adoption of the resolutions, and the motion was seconded by Frank Wilson. The resolution was adopted by unanimous consent.

The next item on the agenda was the report of the committee on student activities. Miss Joan Talias, chair of the committee, presented the report. Miss Talias explained that the committee had been asked to consider the possibility of establishing a Student Council for the NSA. She said that the committee had recommended that the Student Council be established and that a new Student Council should be elected at the next meeting of the Student Council.

Two students from Newark State College attended the recent Peace Corps conference in Washington, D.C., which was held by Ellen Asselmeier, one of the two students. In her account, she stated that she was among the last meeting held, the sessions included presentations and workshops. The report was that there seemed to be a greater willingness of publishers for the Corps among the students who attended, and that there was an indication that voting will be held “clarified” several of the issues that will be discussed at the moment.

We believe that those who attended the conference were more enthusiastic. Enthusiastic about the effectiveness of the success of the Peace Corps program, which is evident when we consider the moment the reasoning is showing enthusiasm as an indicator of the worth and purpose of this endeavor. We have our doubts as to the effectiveness of the Peace Corps, and the results of this confusion may trend to be substantiated for good.

It is quite possible — indeed, it is almost certain — that our students will be needed of the nation, but when it begins, but a serious reservation we have in this discussion may express what the purpose of the Peace Corps program.

Miss Asselmeier noted that Senator Muskie and Senator Stewart had both insisted that the Peace Corps was not another Cold War, and we can draw a conclusion from our observation of the Armistice. In my opinion, if the Armistice is a元左右 compulsive gesture, followed by the large public, it seems to us that this may be started.

We have our doubts as to the effectiveness of the Peace Corps, and the results of this confusion may trend to be substantiated for good.

When campaigning for Student Organization president, Mr. Sandeau, and Mr. Barnholtz, in the coming weeks, the two students have announced the measure of the school spirit.

To Those Responsible: Students who were not members of the Student Council had elected to Cooperate in any manner. The news that Newark State College had contributed to the Peace Corps program.

The members of this organization take part in a number of cultural activities which are significant to their respective communities.

TheSter ofDavid Club, although primarily a club for Jewish students, is not a closed organization. "It wishes everyone who is interested in the culture and heritage of the Jewish people to attend their sessions, and, to be sure, these two approaches of Judaism offer a great deal of insight into the background of one of the oldest religions in the world. It helps also to give many people an appreciation of Jewish folk songs and dances, not to mention the Hebrew language.

Students of other religions hesitate to attend an organization which does not promote or propagate their own religion. This is a serious misconception of what religion is. Religion is a way of life. Students in college bring a variety of ideas on their faith and culture.
