Dear Dr. Farahi:

At its session on January 4, 2016, the Executive Committee for Substantive Change of the Middle States Commission on Higher Education acted:

To acknowledge receipt of the substantive change request. To include the online Master of Science in Computer Information Systems within the scope of the institution's accreditation. To remind the institution of the Commission's request of June 26, 2014 regarding the Periodic Review Report due June 1, 2017.

This action is a substantive change action. An explanation of this type of action is provided in the Commission's policy *Accreditation Actions*, which is available on the Commission's website.

Enclosed is a copy of the institution's Statement of Accreditation Status (SAS) for your review. If any of the factual information is incorrect, please contact the Commission as soon as possible.

In accordance with the policy *Advertising, Student Recruitment, and Representation of Accredited Status*, the accreditation status of the institution must be accurately represented. Please ensure that published references to your institution's candidate status or accredited status (catalog, other publications, web page) are accurate and include the full name, address, and telephone number of the accrediting agency, and the effective date (month and year) when status was granted. Candidate for Accreditation is a status with the Commission that indicates that an institution has achieved membership and is progressing toward, but is not assured of, accreditation.

Additional Location - A location, other than a branch campus, that is geographically apart from the main campus and at which the institution offers at least 50 percent of an educational program.
