Convocation Usings In 106th Year At NSC

President Wilkins delivers address

President Wilkins, in a Convocation address entitled, "Those Whom the Gods Would Destroy, They First Make Mad", called for sanity in these chaotic times. The Fall Convocation officially opened the 106th Year At NSC.

In his address, President Wilkins warned that, "deterioration today is probably our greatest danger."

Kirkpatrick’s Art Exhibited

Miss Kirkpatrick

An exhibition of paintings and drawings by Miss Margaret Kirkpatrick, Associate Professor in the Department of Fine Arts at Newark State, currently is being held in Detroit, as part of the dedication of a hospital addition to the Metropolitan Hospital and Clinics in that city.

Miss Kirkpatrick, formerly a resident of Michigan, teaches art at Newark State. Her background includes a Bachelor’s Degree from Nebraska Wesleyan University and a Master’s Degree from the University of Michigan. She later continued her studies at the Chicago Art Institute, the Department of Fine Arts at New York University. She has also contributed to a number of the Student Council meetings.

Dean’s List Announced

Dr. Donald Raichle, faculty advisor to the Lecture Series Committee, in reply to statements made at the July 22, 1961, Student Council meeting, reported that the choice of speakers for the Lecture Series has always been made by student body representatives, not by himself or other faculty members. He also said that the choice of speakers for the Series, According to Dr. Raichle, the final decision as to last year’s speakers was made by students appointed to the Lecture Series Committee by the Student President, Tony Conte. This year’s speaker, Maxine Resnick, a resident of Michigan, teaches art at the Montclair Art Museum, and at the Chicago Institute of Design, later continued her studies at the Chicago Institute of Design, until October 15. She is currently being held in Detroit for the opening of the Montclair Art Museum.

The first Sophomore group to go to Stokes State Forest this spring is being held on Wednesday night, May 19, April 9, April 25, and May 7.

RaiChle Answers Student Charges

Dr. Donald Raichle, faculty advisor to the Lecture Series Committee, at a Convocation address entitled, "Those Whom the Gods Would Destroy, They First Make Mad", called for sanity in these chaotic times. The Fall Convocation officially opened the 106th Year At NSC.

In his address, President Wilkins warned that, "deterioration today is probably our greatest danger."

In his address, President Wilkins warned that, "deterioration today is probably our greatest danger."

“Who dares to teach must never cease to learn.”

Thomas Henry Huxley

Raichle met with President Wilkins, and afterwards a Lecture Series’ Constitution was drawn up.

The series, according to President Wilkins, leaves the individual open “to any kind of aggression from outside, that today is probably our greatest danger.”

ELECTION ISSUES.

At the May 21st meeting, several Student Council members expressed the opinion that students should have more say in the choice of speakers for the Series. According to Dr. Raichle, the final decision as to last year’s speakers was made by students appointed to the Lecture Series Committee by the Student President, Tony Conte. Lucille Pace, this year’s chairman and a member of last year’s committee, confirmed the statement made by Dr. Raichle.

The second Sophomore group to go to Stokes State Forest this spring is being held on Wednesday night, May 19, April 9, April 25, and May 7.

Sophs at Stokes

The first Sophomore group to go to Stokes State Forest this year left the campus at 8:30 a.m., Monday, September 25. The Stokes program has been very carefully planned, with the students divided into groups to include increased faculty participation.

Dr. Benson of the Department of Fine and Industrial Arts addressed the first group which was joined on Tuesday by Dr. Erwin of the Physical Education Department and Mr. McCrorey, Director of Placement Services.

Before leaving, the students were given the advance class assignments in order that they might be divided between their studies as classes continued in their absence. It is felt that this will eliminate anxiety on the part of both student and instructor.

The remaining Sophomores will be seen departing during the six scheduled weeks: first Sophomore group, April 9, April 19, and May 7.

Star of David Selects Slate

The Star of David Club selected its slate of new officers at a meeting held on Wednesday night, September 27th. They are: Anita D. Clark, President; Ellen Brody, Vice President; Barbara Rosenfield, Secretary; Arthur Goldberg, Corresponding Secretary; and Lina Jawitz, Treasurer.

NSC to Host LWV

Newark State College, in cooperation with the Union County League of Women Voters, is planning host to Republican and Democratic conventions to be held on November’s General Election. The meeting will include discussions of many vital issues.

The audience will also be free to ask questions of the candidates.

The meeting will be held on October 23, at 8:30 p.m. in the Little Theatre. Those individuals involved in the preparation of this program feel that it behooves everyone who is in voting age to take the opportunity to vote in this election. It is hoped that this will never cease to learn.

President Wilkins' address

"We who dare to teach must never cease to learn."
Editorials

Waste of Wealth

We are on the brink of war and few of us realize it. Last week, President Kennedy warned the world in his annual address to the United Nations in New York and appealed for the " Pax despace ". The President placed an urgent call for immediate action in order to prevent a global catastrophe. The world is on the brink of war.

We wonder exactly how Russia is taking all this. Apparently she is cheap, but democracy never prevailed in an ignorant society.

Two years ago, a Soviet newspaper wrote that America is crying for peace. We, on the newspaper staff, are eagerly looking forward to that day. The day when the President will be able to do something about the problem of peace.

Mr. James Day

Mr. James Day, head of Informational Services, states: Anything is possible, but it depends on what the world thinks it will be. It depends on what the world thinks it will be like tomorrow. It depends on what the world thinks it will be like in 1,000 years. It depends on what the world thinks it will be like in 10,000 years. It depends on what the world thinks it will be like in 100,000 years. It depends on what the world thinks it will be like in 1,000,000 years. It depends on what the world thinks it will be like in 1,000,000,000 years.

Dr. Robert H. Roth

Dr. Robert H. Roth, Provost of Education, comments: "Our position, as Dr. Kennedy has stated, "is the only reality, Disarmament is not an ideal, but it is a practical necessity. Not to be idealistic is to be the only realistic course left to those in this insane world."

Letters

DEAR SIR: THE EDITOR;

The Delta Rho Chapter of Kappa Delta Pi will hold its annual banquet to honor all of its members who have achieved academic recognition on the Dean's List, as well as a warm greeting to our new faculty members.

The banquet of our society is interesting in promoting and supporting excellence in scholarship. Being selected to the Dean's list is one of the highest honors any college student can receive, it is a real verification for Kappa Delta Pi to help celebrate those students who are truly outstanding. We extend our congratulations for their meaningful endeavors.

The tea will be held on Thrusday, October 5, at 3:30 p.m. in the student lounge.

Al Griffith
Pres., Kappa Delta Pi

IS IT A PROBLEM? To the Editor:

After reading "The Problem of Arms Race," I wonder if the student who wrote this last week for INDEPENDENT is anuding the question. If the arms race has reached its height, is it possible that the Administration is looking beyond the political and intellectual to and the physical attributes of students? Perhaps I have not been around as long as many of my classmates, but I have never thought of loosing an arm or leg to an atom bomb, or being pushed too far" in Berlin. Is it necessary that we should consider only the potential for damage -Kennedy's recent eloquence at the UN is merely the latest—we have been aware, remember once when we would never think of losing an atomic bomb except in defense against a serious attack. Now we have developed and stand ready to use tactical A-bombs if the Russians "push us too far" in Berlin, think we'll achieve disarmament some day, I do think that the only way to achieve true disarmament is to somehow demonstrate to the other frightened people that the world we absolutely don't want to control or destroy them, threatening to use atomic weapons over Berlin does not demonstrate this. Somehow we must take just one unilateral step in the direction of disarmament. I am dearest sick of the endless arguments about the game that both we and the Russians have been playing. Let us take the first practical steps to show our willingness. Otherwise, I see nothing but war and death.

Dr. H. F., Didsbury

Dr. Howard F. Didsbury, Jr., of the Department of Philosophy, comments: "Disarmament is possible only if it is unilateral. It would also have to cover both nuclear and conventional armaments."

Mr. Fred Marder

Mr. Fred Marder, President of the Student Organization, states: "As a student organization, we think that disarmament can and should be accomplished in my opinion because of this crucial time. The Soviet approach, however, is not based on the objective of our negotiations. Certainly, can not hope to achieve any possible will gains from the present armament build-up. Thus, as the inter}

W.R.A. Point System Adopted

This is the second in a series reviewing the handbook of the Women's Recreation Association. The Point System and regulations will be explained.

The W.R.A. of Newark State College established and adopted the Point System in order to promote the purpose of its participation of women in the W.R.A. program.

Records are kept for each woman's participation of at least one credit hour. Points and credit hours are given in accordance with the attendance at each individual event.

The yearly program is divided into eight six-point per credit per activity, with a possible total of 72 points of the total meetings. The point distribution is based on the following:

- The sports run six points per credit per activity, with a possible total of 72 points of the total meetings. The point distribution is based on the following:

- The sports run six points per credit per activity, with a possible total of 72 points of the total meetings. The point distribution is based on the following:

- The sports run six points per credit per activity, with a possible total of 72 points of the total meetings. The point distribution is based on the following:

The awards and their accompanying points are as listed:

- First Award - 24 points -- A W.R.A. pin
- Second Award -- 16 points -- A Desk Set
- Third Award -- 12 points -- A Trophy

Fencing Program Initiated At N.S.C.

Mr. Day, Director of Intercollegiate Sports at Newark State College, will initiate the first organized fencing program on Monday, October 3rd at 3:30 P.M. at D'Angelo Gym.

The program will involve two teams representing the Academy of Men's Intercollegiate Competition for Newark College. The teams will be organized and a series of tournaments will be held every Monday and Wednesday.

W.R.A. Point System

The W.R.A. of Newark State College has decided to initiate a point system for the upcoming year. The system will be used to determine the number of points each woman is awarded for her participation in the club's activities. The system is based on the number of points awarded for each activity, with a maximum of 72 points for the entire year. The system is designed to encourage active participation in W.R.A. activities and to reward members for their dedication.
