REPORT OF THE ASSESSMENT COMMITTEE

I. Consultation

Prior to preparing its report, the Assessment Committee shall meet with the assessee to arrange for peer observation and student evaluation of classroom teaching effectiveness. The Assessment Committee may also solicit from the assessee such additional evidence, information and material as may be deemed relevant and necessary to Committee deliberations.

A. Peer Assessment of Teaching Effectiveness

1. The assessee shall arrange to have at least two members of the Assessment Committee observe his/her classes. Each observation shall be made on a separate date, to ensure that at least two class sessions are observed.
2. Observation arrangements shall be made between assessee and observer in advance of the observation and shall include scheduling a post-observation conference.
3. The assessee shall have the opportunity to respond in writing to notes or any materials generated during classroom observations. Such written response will accompany and be a part of this assessment file.
4. The assessee's class meetings chosen for observation should be representative of typical instruction used in the course. Thus, examination sessions and similar non-instructional situations are excluded.
5. Fairness to the assessee would suggest that the observer be present from the very beginning of the class session so that important information and directions given to the students are not missed.
6. To be helpful to the assessee, the observation should be directed to consideration of the following:
 - (a) The assessee's skill in providing clear explanations and in stimulating interest in the content of the course.
 - (b) The assessee's efforts in relating to students in ways which promote mutual respect.
 - (c) The assessee's ability to manage class time effectively.

B. Student Evaluation of Teaching Effectiveness

All SIR II's will be collected. At least two courses should be included, representing, if possible, the general mode of instruction used by the assessee. If more than two courses are evaluated, all should be included in developing the Assessment Committee's report. Student evaluation forms should be administered by a student or member of the Assessment Committee not by the faculty member being assessed.

- B. Student Evaluation of Teaching Effectiveness (cont'd.)
 Arrangements for student evaluation shall be made between the Assessment Committee and the assessee in advance of the class session and shall include scheduling a meeting to discuss the student data and, if necessary, to give the assessee an opportunity to respond in writing to the student data. Such written response will accompany and be a part of this assessment file. The assessee must initial the SIR II forms, indicating that he/she has read them.

- C. Peer Assessment of Assigned Administrative Duties
 In the event that the assessee presently receives released time for the performance of duties other than disciplinary research, he/she should, in consultation with the Assessment Committee, select a person to evaluate that performance. The assessee must sign the evaluation and have an opportunity to discuss it with the evaluator and, if necessary, to respond to it in writing. Such written response will accompany and be a part of this file. The written evaluation and the assessee's response, if any, should be submitted to the Assessment Committee prior to the date when the Assessment Committee drafts its final report.

- D. Peer Assessment of Scholarship (Currency and Depth of Knowledge in the Discipline)
 Following a review of the assessee's Self Assessment and an initial comprehensive discussion between the assessee and Member IB of the Assessment Committee of the assessee's current scholarship, the full Assessment Committee will assess Scholarship (the assessee's currency and depth of knowledge in the discipline). The final report of the Assessment Committee will include a summary of the initial comprehensive discussion of scholarship between the assessee and Member IB of the Assessment Committee.

II. Final Report

The Assessment Committee shall prepare a final report including recommendations as to whether or not the assessee is deficient. The Report may also include recommendations for the resources needed for the career development and/or the correction of the deficiency of the individual. The Assessment Committee shall forward the final report to the appropriate College Dean, with a copy to the individual.

Within five (5) calendar days after the issuance of the final report, the assessee may present a written request to the Assessment Committee to reconsider its recommendations. In the request, the individual shall state the specific reasons why he/she feels that the recommendation is inappropriate. If the Assessment Committee grants the individual's request for reconsideration, it will expedite the reconsideration process so as to allow for the overall completion of the assessment process in a timely fashion. The Assessment Committee will advise the President in writing if it grants an individual's request for reconsideration.

A. Deficiency

- 9 A personal professional deficiency shall be deemed to exist if, and only if, the individual's performance, taken as a whole, does not meet reasonable standards of acceptable performance.

B. Drafting the Report

The Assessment Committee shall prepare a comprehensive final report on each individual assessed, which shall include:

1. A review of the individual's professional performance and role at the University primarily over the last five years.
2. An identification of the individual's strengths.
3. A specific and detailed identification of the individual's deficiencies, if any. If the individual is not found deficient, the report shall explicitly so state.
4. In addition, the Assessment Committee may prepare a recommended plan of career development tailored to the individual's needs, utilizing the resources available at the University under the Career Development program. In the event that the Assessment Committee intends to prepare such a recommendation, it shall consult with and so advise the assessee.

C. Response

The assessee may forward to the Dean (as President's designee) a written response to the final report of the Assessment Committee. Any response shall be attached to the report. The report of the Assessment Committee and the faculty member's response, if any, should be inserted following this page.
