Bad News From Sophs. ‘Good News’ Cancelled

Ellen Asselmeyer, president of the Sophomore class, announced last week that the sophomores’ production of the musical ‘Good News’ has been cancelled. The show was to have been scheduled for performance on March 15.

In announcing the cancellation, Miss Asselmeyer informed the students that she had first conferred with the two student directors, Kenneth Meeks and William Drury. All three had concurred in the decision to cancel the musical, she said.

“There are several reasons that may have prompted it,” Miss Asselmeyer told the REFLECTOR. "The primary one was the lack of cooperation on the part of the members of the Sophomore class. She added that "poor timing" was also a factor, suggesting that "it would have been the same people who would have opposed it anyway.

"The Sophomore class is involved in many activities," Miss Asselmeyer observed, and attempted to put ‘Good News’ was cancelled because of the class’s lack of physical capacity of "even the interested males are doing too many things already!"

When asked if the show was ever scheduled to be performed, Miss Asselmeyer replied that the show had been scheduled for the afternoon of February 20. It was estimated that from the number of students who turned out was insufficient to satisfy any on availability, she and Drury apparently concurred in the proposal to “cancel the show immediately.”

Miss Asselmeyer also commented that she thought Weeeks and Miss Drury had demonstrated the need for more realistic in realizing that “it’s better not to do everything at once, to do it calmly.

The one hundred dollars that the Sophomore class was to send to the class back the show, she said, would be produced at a future date when they have the time and interest.

Newark State College

Mathematics Department Plans State Conference

The Mathematics Department of Newark State College is planning to host the annual Spring Conference on March 11, Dr. Regina Garbi, chairman of the conference, announced last week that several mathematics teachers from high schools and colleges from throughout the state will present demonstration lessons in the teaching of mathematics. Cooperating with Dr. Garbi in the conference will be Mr. Ronald Parkes of the Union County High School and Mr. Fred Moskowitz of the High School in New York City. "Mathematics majors have been invited from the other state colleges and universities," Dr. Garbi said. "They will be present to pre-service teachers." Newark state math majors from all four class levels will participate in the conference. The program of the conference deals with contemporary mathematics and advanced mathematics in the junior and senior high schools, and colleges.

Among the teachers who are participating in the program are Dr. M. Montgomery, professor of mathematics at Uses, Mr. Moskowitz will demonstrate with one of his twelfth grade classes. According to Dr. Montgomery, "advanced placement" mathematics is taught in the senior. The term “Advanced placement” refers to a high school course which contains the elements of a first course in a liberal arts college.

Mr. Parkes, a native of Texas, will present a session on the development of the number of mathematics teachers from high schools and colleges from throughout the state.

Editorials

Per Yous As we saw earlier this year, this newspaper exists partly for the expression of opinion. In order to satisfy this requirement of a free society, we will print letters we receive. This week, for some reason, we have been inundated with missives addressed to the editor.

Most of them denounce an editorial that appeared here a few weeks ago. The writers are entitled to express their opinions, but I would like them to sacrifice their editorial space that these discontents might be heard in their entirety.

Letters

To the Editor:

I am enthusiastic about your choice of Fillmore, "Concrete Ideas," sitting serenely at the bottom of your editorial page of February 14 was in magnificent contrast to the snarling, quivering, retching words which threatened to engulf it. But no--surrounded by choking horsey, blood and guts, talking, people picking fights, plagues, barricades, orgs (school superintendents), a group of scathing (of student teachers), and an occasional personal attack. Still, this simple little sentence -- something with the mystery of Zen about it held firm.

Tubular metal garment frame, which we shoved all over the yard by a gust of wind if this minute seemed to be a good time to throw in the hollow, open legs.

As to me, I would like to begin helping me achieve Satori, this prating of the beauty of a job that might not necessarily reflect the opinions of the editors. Nor is anything from helping me achieve Satori, this twaddle which cluttered up the bottom of your editorial page of February 14 was in magnificent contrast to the snarling, quivering, retching words which threatened to engulf it. But no--surrounded by choking horsey, blood and guts, talking, people picking fights, plagues, barricades, orgs (school superintendents), a group of scathing (of student teachers), and an occasional personal attack. Still, this simple little sentence -- something with the mystery of Zen about it held firm.

Communist Scholarships Rejected By Students

The Student Center of Newark State College will be transformed into a dance hall on Saturday, February 25, when the annual dance, "Paris Scene," is held. It is sponsored by the Academic arm of the National Honor Society for Dance, and will feature student musicians as well as guest dance duets. All proceeds will go to the Scholarship Committee.

The dance begins at 8:00 o'clock and continues until 1:00 o'clock early Sunday morning. Admission is $1.00 for students and $1.50 for non-students. The Student Center will be open to students only after the dance begins.

Dr. Donald R. Raiche, President of the Legislature of by vote of the Board of Trustees, is Head of the Academic Division of the SCIO. He is the President of the State College of New Jersey, which includes Newark State College, New Brunswick State College, and the New Jersey State College of Agriculture.

About 200 students from other colleges and universities in the area will attend the dance, which is sponsored by the National Honor Society for Dance. They will be chosen by their faculty advisors in consultation with the President of the College.

Dr. Raiche is the President of the American Association of University Professors, and is a member of the Board of Governors of the American Council on Education. He was born in New Jersey and received his A.B. degree from Princeton University in 1933. He received his Ph.D. degree from the University of Pennsylvania in 1937.

Dr. Raiche is the author of numerous books and articles on higher education, and is a frequent contributor to national educational journals.

He is married to Mary E. Raiche, who is a professor of English at the College of New Jersey. They have two sons, John and Robert.

Dr. Raiche says that the dance is an opportunity for students to have fun and to meet other students from other colleges and universities.

The dance is open to all Newark State College students, and to all students from other colleges and universities in the area. The proceeds will go to the Scholarship Committee, which supports students who want to continue their education.

Dr. Raiche says that the dance is a way for students to give back to the College, and to support their fellow students.

The dance will be held in the Student Center of Newark State College, which is located at 144 University Avenue.

For more information, call Dr. Raiche at 973-641-2100, or visit the SCIO website at www.scio.edu.
Squires Overpower Fairleigh Dickinson
Madison, 94-74

Newark State's 94 point total over Fairleigh Dickinson, Madison, was the second highest total ever scored by the Squires in their history. Tom Kuc scored the first nine points of the game, driving the Squires out to a 21-7 lead. Wilkes and Davis added four points each, putting the Squires up 26-13 in the first half. In the second half, the Squires outscored F.D. by 16-13, and coasted the rest of the way.
