Speaking on Tuesday, February 20, his topic was "The Current Situation in South Africa." Dr. Silverman stated that the situation involves and results from segregation, discrimination in education, and automobile industries having been followed most recently by the presence of prejudice, discrimination as chairmen of the Senate committees and subcommittees. It has been said of him, "Everybody's against Estes Kefauver--except the people." He is to speak to the House of Representatives from Tennessee's Third District, and the country is a small, three times three oppose of the Democratic nominee for Vice President in 1956.

Sen. Estes Kefauver Slated As Next Lecture Series Speaker

Estes Kefauver, Tennessee's Democratic nominee for Vice President in 1956, is to speak in the Little Theatre on February 21. Dr. Silverman stated that the Kefauver-except the people." He is to speak to the House of Representatives from Tennessee's Third District, and the country is a small, three times three oppose of the Democratic nominee for Vice President in 1956.

Adams, Ramolo to Appear in Lecture Series

The changes in curriculum for both secondary English and secondary Social Science may have been announced by the respective departmental chairs, Dr. Rhoodie stated that the department was moved by two main considerations: 1) to select a strong intra-departmental curricular English majors without changing or affecting the established interdepartmental curricula in either offerings or course, 2) to arrange the offerings within the English program to supply the student with the necessary and desirable skills in the form of certain course work which will best prepare him for his specific professional aim."

Variables Eliminated

"The only major difference between the program in the catalogues and the revised program is the elimination of Variables. The numbers and hours of the electives remain unchanged, only their classifications changed. Variables become either required courses or electives. The current program could not practically be administered with the present limitation in numbers of staff, all general education English courses in the College Catalog, and Modern Language courses, have ten or more years' experience in the field.

"The required courses were chosen for the purposes of strengthening the students in as much as possible in this specific professional aim—to become an effective teacher of English to men and women. Roughly, the courses fall into two categories, 'skill' and 'content.' As one example, the course in Advanced Composition is designed to detect specific weaknesses in that area of study and to supply that deficiency with spelling and grammar work which will enable the student to be successful in the use of English in the classroom.
Conference Weaknesses

For a conference to successfully meet the goals which have been set for it, and for those attending to find it a worthwhile experience, it is necessary that the individuals who take part in the organizational stage of a conference must realize that they are members of a whole. They must also be aware of the other aspects of a student's life; also, they must make clear to all participants in the Conference what their obligations are. In other words, the Conference director must send individuals whose qualifications to attend such a gathering have been seriously, or to say the least, no conference can achieve what has set out to do.

Reactions of Newark Students who recently returned from the CCCU-Glenfield Branch of New Jersey State College National Seminars in New York were made known to the Board of Education at the meeting held Monday night.

In the future all groups at Newark State carefully check on the sponsors and planned program of events for conferences they have been invited to attend. It is a waste of the student body's money to send representatives from the colleges to a conference which will provide them with neither personal enlightenment nor information and ideas to bring back to the campus groups which sponsored their trip.

Consequently the Board of Education has asked that a conference do not be opened to outside representatives from Glenfield State. Just because a group of four or five students could not attend a conference does not mean that a representative of the college of such students to the Business and Commerce staff, and provided special accommodations for these students.

Barbara W. Meeks. Unlike the surrounding towns, Montclair Branch of the N.A.A.C.P. has made no formal protest against the Glenfield attitudes toward the admission of Negroes on educational grounds. The complaint stated that the pupils at Glenfield were not being offered educational opportunities on the same level as the other junior highs. This complaint has caused two Board meetings to diminish enrollment, which could eventually result in a number of one hundred and eighty-five.

Therefore, in looking at the overall picture, I can only see that the actions of the N.A.A.C.P. are just causing more resentment, instead of facilitating the transition to the races in Orange.

I am not against desegregating in my school. I am opposed to the action taken by the NAACP concerning the problem of Orange segregation in the Orange school system. I feel there is nothing wrong with desegregating too far in its decision to file an action with the NAACP in Orange because I have no apparent need for this suit only because of the NAACP. I believe that this has been caused by the behavior of the students of both Negro and White students. The amount and quality of the behavior of these students has caused the NAACP to believe that they are no longer representative of the Orange community.

The Board of Education will be in an interesting position at that time, having taken a position on the integration question, but with the future all groups at State care fully check on the sponsors and the amount of damage they have done to the prestige of the college or, 2.0. At the time of the meeting, it was also stated that a Petition Committee, a representative committee, was also named to study the situation and propose solutions to the problems of the nine students who attended his seminar.

The Board refused to act immediately since the move involved crossing district lines, and thus violating a longstanding policy of neighboring school districts. It also felt that the move would not only disturb the other junior highs, but also Glenfield, since it meant reducing the number of students from a hundred and eighty-five.

Consequently, the Board of Education was asked to immediately close the high school for Glenfield and to discontinue its attendance at the others. The N.A.A.C.P. has proposed sending the ninth graders to M. H. Hebbel and Glenfield boys to Hillside and George Munden.

The Montclair Branch of the N.A.A.C.P. has been seeking to have the public segregation charges. The charges have been made not only, but because of the lack of enrollment at Glenfield Junior High, parents last year attended a seminar of Education to close Glenfield and theyicketed for two days last fall to obtain this action. The Board felt that all the children would suffer because the sudden move of students would produce overcrowding. The Board, however, increased the teaching and guidance staff at Glenfield temporarily and plans to close the school at the end of the current year. The Tajiri Committee, a representative committee, was also named to study the questions to be solved in the problems of students who have been involved in re-establishing the students from Glenfield. Their report is scheduled to be made this spring.

Presently, the controversy is being handled in an independent manner by the students and the Merchants of Union. No word has been received from the Chamber of Commerce, but it was reported that several of the merchant's have responded.

Student Council Vice-President Robert Conway explained that an election committee was formed from the suggestions of the Glenfield seniors and the council members.

The candidates asked to the Chamber of Commerce, and it was reported that several of the merchant's have responded.

The students will have to present their case in the next couple of weeks. This committee will have to present their case in the next couple of weeks. This committee will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The committee will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The council members have received letters from the Executive Council and from the Merchants of Union. The students will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The students will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The students will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The students will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The students will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

The students will have to present their case to the Glenfield residents to determine if they will or will not accept the students.

Sfraelo's will Represent South African College in US Bowling Tournament

BOULDER, Colo. (AP) — Sfraelo's, an L.A.-based bowling team, defeated the University of Colorado in a high-stakes competition on February 3, setting the stage for the team's upcoming trip to the National Collegiate Bowling Tournament. The victory solidified Sfraelo's standing as one of the top teams in the nation, and set the team up for potential success in the upcoming national competition.

The match was held at the University of Colorado's bowling alley, where Sfraelo's secured a convincing win over the host team. The victory was a result of a well-planned strategy and a strong performance by the team's bowlers, who demonstrated exceptional skills and technique.

Sfraelo's' victory against the University of Colorado was a significant milestone in their journey towards the National Collegiate Bowling Tournament. The team's performance cemented their status as a top contender in the bowling community, and set the stage for further success in the competition.

During their preparations for the national tournament, Sfraelo's has been working tirelessly to perfect their skills and strategies. The team's focus has been on developing a solid foundation, and they have been training rigorously to ensure that they are at their best for the upcoming national competition.

The team's dedication and hard work have paid off, and they are looking forward to competing at the highest level. Sfraelo's' success in the competition is a testament to their commitment to excellence and their relentless pursuit of victory.
