Mary Weber Will Serve As Student Council President

Chagnon Elected As "Veep"

Students of Newark State went to the polls on Monday, March 24 to cast their ballots in the final Student Council election which resulted in the selection of Mary Weber and Joe Chagnon as president and vice-president respectively for 1952-1953.

Preliminaries to the final election included nominations from all sections at which time any members of the junior and senior classes could be suggested for these offices. After this procedure, section delegates met in a convention on Monday, March 17 to form a nominating convention to select from those nominated five candidates from each office.

On Thursday, March 20, these candidates were presented before the student body and on Friday, the primary elections took place at which time all but two candidates for each office were eliminated.

Ed's Note: Pictures and personality sketches will appear in the next issue of the paper.

Frosh "Review" Huge Success

by Eileen De Coury, '54

"Your '56 Review," a fast moving mock television show, written and produced by the freshman class, was staged in the college auditorium on Thursday, March 15. Based on a series of television acts, the review commenced on a commercial note as baton twirlers sang the merits of Suzy Soap. The initial offering however, was a production number danced by the chorus to the rhythm of the Synchronized Check. Following this, Helen Freeman held the spotlight with an accroibox solo and was followed by a gay reminder of the roaring twenties, the Charleston executed by Anne Bodine and Marilyn Peterson. A change of pace next occurred in the form of a monologue by Marilyn Barnhard. Climaxing the first scene was a romantic duet, Why Do I Love You?, sung by Peggy Pellicane and Ronnie Otto.

With a nightclub as the background for the various acts the "t.v." cameras again went to work as Ralph Mazurek and Merle Russonomo filmed forth in an artful presentation of the tango. Appearing next on the bill was Ronnie Otto who wooed Anne Sommerschein with his rendition of All the Things You Are. Following in a more light-hearted vein was the singing and dancing of "Hula Loko" to the strains of "Arthur Godfrey's" guitar. Featured also in this number were the fabulous hula girls, five of the most virile dancers in Hawaii, whose graceful gyrations caused peals of laughter from the audience.

Next appearing in the nightclub were Pat Lee and Joyce Halliday as two tramps in a clever song and dance pantomime to We're a Couple of Swells.

Soundings additional musical notes were Irene McMann's rendition of Make Believe and Frank Grethoren's work on the marimbaphone plus the loud and colorful (Continued on Page Five)

Students to Attend Assembly

On April 7, 8, and 9, David Elliott, Jean Palmer, Alison Harris, and Louise Scurzio will represent Newark State at the annual Model U.N. Assembly to be held at Barnard College. The group will serve as the delegation from Venezuela on the Political and Security Council, Economic and Social Committee, Trusteeship Committee, and the Ad Hoc Committee.

The General Elementary Men's Guild will hold elections today, in room 29, at 11:00. All members must attend.

The policy of Newark has been to refrain from argumentative articles in the public press. In a paper recently prepared for the State Board of Education by two members of the Alumni Association: namely, William R. Smith, principal of the Abington Avenue School in Newark and Guy Quim, principal of Connecticut Farms School, Union Township, the aims of the college are stated as follows: "Our primary purpose is to furnish good teachers for the children of New Jersey, not to maintain the status quo, or even the entirety of any institution unless it further the above purpose." "After careful study of all the data available, we have attempted to arrive at a conclusion removed from emotional concern. We feel that Newark State can best realize its best dedicated purpose by following the popular trend and moving out of congested city to the periphery of the metropolitan area. This will in no way change its original purpose but will give it a campus and buildings to attract worthy candidates for the teaching profession. As the projected facilities at Paterson State will fulfill the need for education of elementary teachers in the northern metropolitan area, we recommended that the Newark college be relocated somewhere near the south end of the Newark area. To combine it with Paterson would remove teachers training on a commuting basis from thousands of worthwhile candidates in the Newark area. To combine it with Montclair on the present Montclair campus, would be unreasonable in view of the proximity to Paterson and, again, because it would remove most of the southern metropolitan area from the commuting district."

As is stated in the paper to the State Board of Education, Newark State is nationally known for its excellence in teacher training. This is evidenced by the fact that it was the only college in New Jersey and the only teachers' college on the eastern seaboard chosen for Cooperative Study of Teacher Education made by the American Council on Education. This study extended from 1938 to 1944.

When the college is relocated, it is recommended that all existing curricula be maintained since they deal directly with the field of elementary education, with the exception of fine and industrial arts. Fine arts should be maintained because it is concerned with elementary education although it extends to the secondary level. The industrial arts department should likewise be maintained so the college will not become primarily a female institution and should be kept. It was also recommended that the college be kept near the center of the large industrial area of the state.

ELECTIONS TODAY:

The General Elementary Men's Guild will hold elections today, in room 29, at 11:00. All members must attend.

Vol. XVII No. 9
NEW JERSEY STATE TEACHERS COLLEGE, NEWARK, N. J.
April 1, 1952
Correction: The draft-deferment tests that were given last spring. The Education Testing Service of Princeton will again administer the exams come April 24. They will be held for the benefit of students seeking deferments.

The criteria for consideration as a student are either a 70 or better on the Selective Service Qualification Test or class standing among the male members in the upper half of the freshman class, upper two-thirds of the sophomore class or upper three-quarters of the junior class. Seniors accepted for admission to a graduate school can study if they are among the upper half of the male members of their senior class, or they may make a score of 75 or better.

Students already enrolled in graduate schools may consider for deferment so long as they remain in good standing.

These criteria are guides for the local boards. The local board is under no compulsion to follow them, but any local board classification is subject to appeal. The appeal must be filed in writing with the local board within 10 days of the date the local board mails the notice of classification.

Remember the student who is 21 and eligible to take the test.

General Hershey has urged all students who are eligible to take the test.

The purpose of the conference is to create a better understanding between the students, faculty and the Reflecter staff. The editorial board wishes to remind the student body that the Reflecter is your paper, reflecting your activities and opinions, and that its future success depends upon student and faculty participation at this conference.

Palette

by Rae D'Allegro, '52

Are You Coming??

Improvement has been the Reflecter trend during the past year, and we are striving to continue in that direction. The purpose of our college newspaper is not only to function as an organ of the student body, but also to act as a medium between the faculty and the students. The Reflecter can hardly accomplish its purpose unless the faculty and the students take a direct and sincere interest in the paper and venture to offer their suggestions. Every member of the student body must realize that the newspaper is a part of life here at college.

The word "reflecter" means one who throws back thoughts or images. Our paper is a medium of expression by which students may voice their thoughts and ideas on matters pertaining to school organizations and many other topics of interest to the students of this college. Freedom of the press is one of the fundamental beliefs of our democracy, and it is up to you to see that you make the most of the opportunities afforded you.

The editorial board extends a cordial invitation to all faculty members and officers of the student council, classes, clubs and sororities and fraternities, to attend our press conference on April 2 in room 29 at 12:30.

The purpose of the conference is to create a better understanding between the students, faculty, and the Reflecter staff. The editorial board wishes to remind the student body that the Reflecter is your paper, reflecting your activities and opinions, and that its future success depends upon student and faculty participation at this conference.

Selective Service News

Remember the draft-deferment tests that were given last spring. The Education Testing Service of Princeton will again administer the exams come April 24. They will be held for the benefit of students seeking deferments.

The criteria for consideration as a student are either a 70 or better on the Selective Service Qualification Test or class standing among the male members in the upper half of the freshman class, upper two-thirds of the sophomore class or upper three-quarters of the junior class. Seniors accepted for admission to a graduate school can study if they are among the upper half of the male members of their senior class, or they may make a score of 75 or better.

Students already enrolled in graduate schools may consider for deferment so long as they remain in good standing.

These criteria are guides for the local boards. The local board is under no compulsion to follow them, but any local board classification is subject to appeal. The appeal must be filed in writing with the local board within 10 days of the date the local board mails the notice of classification.

General Hershey has urged all eligible students to take the test so they will have scores in their files when the local boards reconsider their cases to determine whether or not they meet the criteria for deferment as students. He has emphasized many times that the present criteria are variables which may be raised or lowered either to increase or decrease the number of students as the national interest shall require.

General Hershey has also repeatedly stressed that no deferment is an exemption. "A deferment does not carry with it any expectations - "A deferment is an exemption. "A deferment is a decision that you make the most of the opportunities afforded you.

(Continued on Page Six)
Seniors Win Twin Bill

Big Frank Vogt poured seventeen points through the hoop on March 10 to lead the seniors to a 45-42 victory over the sophomores. Don Chamberlain, Bill LaRusso and the entire sophomore team, fought furiously to stay in the game, but big Vogt and the senior quintet were too much to cope with.

The seniors jumped off to a quick 13-4 lead in the first quarter. The sophos knotted the count 26-26 at halftime. Schaeffer and Vogt led the seniors second half drive to victory in the scoring department.

A week later on March 17 the freshmen took a 47-45 win at the hands of the sophomores. Once again big Vogt, fed beautifully by little Ray Arciszewski, was the big gun in the senior attack. August (Fritz) Beisler and Gerald McKeown controlled the boards as the seniors had a field day.

Vogt, Schaeffer, Arky Finish Cage Careers

Newark Teachers College basketball machine will be minus three outstanding cagers next year. Ray Arciszewski, Frank Vogt, and William Schaeffer will be lost via graduation in June.

Arciszewski, a shooting little playmaker, is a veteran of three years of varsity competition, having transferred after a year at Seton Hall University. All three boys are truly fine players with plenty of spirit, savvy, and heart.

Without a doubt this trio has been responsible for many of Newark Teachers 41 victories in the past four seasons.

“Tutors” Upset N.C.E., 65-55

In Paul Horowitz’s Newark Evening News sports column recently, Pete Rizzolo a fine basketball official had this to say about our great “Dean of Men,” Joseph (CHIEF) D’Angola. The well known official stated: Joe (Chief) D’Angola is the ideal man to work for. "He’d eject a player from the lineup for committing a flagrant foul before the official had a chance to make up his mind what the penalty should be.”

Mr. D’Angola’s philosophy has been used by one of his own players. Bill LaRusso entered the present college in the fall. Mr. Jannarone, Mr. Jannarone played under “CHIEF” back in 1928-1932.

As Mr. D’Angola sees it, students in this college who take part in competitive games tend to have better personalities than those who play only casually or not at all. Athletic programs in grammar, high school, or college should not stress winning or losing but should try to develop better personalities and character.

Mr. Jannarone has been teaching at Cleveland Jr. High School in Newark, for the past twenty years. He took over the coaching reigns here at State back in 1948. Through the hard work of the athletic department, with Coach Gus Jannarone, Chief D’Angola and Mr. Zweidinger, our teams have had very good seasons.

Mr. Jannarone’s coaching record shows the following:

1948-49: Won 7 Lost 9
1949-50: Won 9 Lost 10
1950-51: Won 15 Lost 4
1951-52: Won 10 Lost 10

The complete record shows that Newark Teachers has won 41 basketball games and dropped 33 in the past four years. Quite a record for a team that in 1947-48 dropped eighteen straight games and had to win a single game.

Tribute to ‘Chief’ & ‘Gus’

Newark Teachers College basketball machine will be minus three outstanding cagers next year. Ray Arciszewski, Frank Vogt, and William Schaeffer will be lost via graduation in June.

Mr. Joseph D’Angola

Newark Teachers College basketball machine was minus three outstanding cagers next year, Ray Arciszewski, Frank Vogt, and William Schaeffer will be lost via graduation in June.

As Mr. D’Angola sees it, students in this college who take part in competitive games tend to have better personalities than those who play only casually or not at all. Athletic programs in grammar, high school, or college should not stress winning or losing but should try to develop better personalities and character.

Mr. Jannarone has been teaching at Cleveland Jr. High School in Newark, for the past twenty years. He took over the coaching reigns here at State back in 1948. Through the hard work of the athletic department, with Coach Gus Jannarone, Chief D’Angola and Mr. Zweidinger, our teams have had very good seasons.

Mr. Jannarone’s coaching record shows the following:

1948-49: Won 7 Lost 9
1949-50: Won 9 Lost 10
1950-51: Won 15 Lost 4
1951-52: Won 10 Lost 10

The complete record shows that Newark Teachers has won 41 basketball games and dropped 33 in the past four years. Quite a record for a team that in 1947-48 dropped eighteen straight games and had to win a single game.

Paterson Tops N.S.T.C. Tutors

Newark Teachers College sustained their tenth loss of the season and their most impressive in the past two decades by upsetting a top heavy Newark College of Engineering quintet 65-55 on Feb. 22 at our Broadway gymnasium. It was the first victory to rank as the top collegiate scorer in the state of New Jersey. He averaged 26 points a game which is a new record for our college.

At this point Chief D’Angola’s philosophy of education came into the picture. The boys had a nice top talk from Chief D’Angola to the seniors and came out at halftime looking like a new team. They put all of their ability, savvy, and spirit into the game in order to offset the tremendous 26 point deficit. Newark rallied behind their two seniors, Vogt and Arciszewski, and overtime Paterson 22-17 in the third quarter.

With Arciszewski and Vogt, again pacing the attack with long set shots and Barnard and Kastelein hitting from underneath, State topped Paterson 22-22 in a furious last quarter surge. State lost 90-82 but the second half of the game and play of the Newark players will be remembered for a long time. Frank Vogt and Ray Arciszewski playing their final game for Newark Coach Jannarone in every way out in all departments and will certainly be missed next season.

Mr. Joseph D’Angola

Newark Teachers College basketball machine was minus three outstanding cagers next year, Ray Arciszewski, Frank Vogt, and William Schaeffer will be lost via graduation in June.

As Mr. D’Angola sees it, students in this college who take part in competitive games tend to have better personalities than those who play only casually or not at all. Athletic programs in grammar, high school, or college should not stress winning or losing but should try to develop better personalities and character.

Mr. Jannarone has been teaching at Cleveland Jr. High School in Newark, for the past twenty years. He took over the coaching reigns here at State back in 1948. Mr. Jannarone’s coaching record shows the following:

1948-49: Won 7 Lost 9
1949-50: Won 9 Lost 10
1950-51: Won 15 Lost 4
1951-52: Won 10 Lost 10

The complete record shows that Newark Teachers has won 41 basketball games and dropped 33 in the past four years. Quite a record for a team that in 1947-48 dropped eighteen straight games and had to win a single game.
Bellina Reports

On Conference

At its March meeting, Delta Rho Chapter heard a report from the president, Joseph Bellina '52, of the biennial Kappa Delta Pi Convocation. The conference was held on March 6, 7, and 8 at Kegelburg Center, Michigan State College at East Lansing, Michigan.

Joe traveled out to Michigan by car with Dean Parch, counselor for the Rutgers chapter and with Jason Kelly, president of the chapter there. They arrived in Michigan on Wednesday, March 5 and toured the University of Michigan. One of the buildings, the Roosevelt Building, is considered the most beautifully designed educational building in the world.

They then went on to the State College where the three day sessions were held. Group conferences took up much of the time. One that Joe attended considered problems affecting education today such as, academic freedom, U.M.T., and the teaching of moral and spiritual values in the schools today.

On Friday evening at the banquet, the group was addressed by Florence E. Allen, judge in the U.S. Circuit Court of Appeals, in Cincinnati. Her topic was the Treaty as an Instrument of Legislation.

One of Joe's impressions concerning the sessions was that N.S.C.T.C.'s contributions were quite comparable with the other colleges and universities.

The conservation of human and material resources is of vital importance to America. Without an overall and practical program of conservation, our nation cannot hope to keep its position of world leadership it has today.

Teachers in all levels of education are being called on to teach some phase of conservation. Far too many do not have the knowledge, experience, or attitude to handle this subject adequately.

At the New Jersey State School of Conservation (Stokes Forest) prospective teachers and teachers in service gain first hand acquaintance with material methods for teaching this and related subjects. Those who participate will come away with a basic understanding of the problems related to the use of soil, forests, wild life and water in the state. This will be supplemented with a background of natural education, recreational methods and visual aids.

The courses open to Newark are in the field science over Memorial Day weekend. As in the past this is only being offered by Mr. Lepp to members of his classes. Then, the ten days from June 15 to June 24 is open to all and offers two credit points, which can be used towards advanced degrees or certification.

Three courses are offered: camping education, conservation education, and water safety and first aid. In camping education students are familiarized with camping and outdoor education and the aims and methods of camping are studied. Conservation education considers the social, economic and scientific implications of conservation. Water safety and first aid offers instruction in swimming, diving, water sports, boating, canoeing, and water safety and first aid. During this students can qualify for Red Cross certification.

Next year the college is offering ten or twelve half scholarships. If you are interested in a scholarship or in going to Stokes this year, see Mr. Joseph D'Angelo and give him your name.

A-Trippin' We Will Go!

Tuesday, April 29 will be an all-college field day, with students taking trips to Pennsylvania and other parts of New Jersey. Miss Hankins will take her juniors 1, 2, and 7 on a geography trip through central Jersey, while Mr. Lepp and his freshman and sophomore groups will visit the Franklin Institute in Philadelphia. Other juniors and some seniors will participate in Miss Lockwood's fine arts trip. Sophomores, juniors, and seniors will also be included in a fine arts trip under Dr. Calcia.

Dr. Frankson has organized a trip to the industrial art men. Mrs. Plenty's seniors are visiting the New York Stock Exchange and the Federal Reserve Bank.

Freshmen taking biology will go in two groups: one to the Boyce Thompson Institute for Plant Research in Yonkers, with Mr. Rich-ardson, and the other to the Raritan Valley Farms in Somerville, with an afternoon stopover at the Rutgers University Agricultural Farm.

Buses will be chartered as usual, although a few of the fine arts students will use their own cars. This is possible due to the small numbers in each group.

This will be the first time in more than five years that the school has had an all-college field day. If it is successful, plans will be made to complete the program with two days a semester devoted to field trips, giving a total of sixteen teen trips during the four years.

Sports in the News

The 1951-52 basketball season is over for Newark State but the record book is still on hand to remind us of the thrills and spills during the last campaign. Let's go back to October and bear what Joe Jannarone thinks of his prospects. "I have a group of green boys that need a lot of work and I'm sure they'll come around. We'll get a great deal of our scoring punch from Wade Likins and with a little luck we'll be able to win about six or seven games. Newark ended the season with ten wins and ten losses and without any luck. In all fairness to our opposition, we lost four games that we shouldn't have. If the team had the least bit of luck we would have beaten Rutgers Pharmacy. (We blew a ten point lead.)

The coach will have a hard time finding a crying towel come next September, because most of the team will be back.

Before we give you a few statistics on this season's play, we've got to mention an outstanding player on our squad. It's hard to explain his greatness as a player but maybe it can be explained as a teammate sums it up: "He's just an animal on the basketball court."

Take a bow, WADE.

But the happiest one shall be I.
Better Half
by Rosa Waldorf, '54
Newark State's girls' basketball team met and defeated Paterson with club in both games of a double header on Thursday, February 28, at Newark's court.
The second game saw Newark's Rita Hekker score 21 points to help give Newark the victory. Helping Rita and scoring almost at the same time were Ethel Luchan, Rose McCann and Elinor Blake who proved essential in the role of playmaker, Eileen De Courcy, Jeanne McGovern, Mary Choice and Hilda Weiss alternated in the guard positions and kept the Paterson guards busy with a hard to break zone defense.
The final score was 40-17.

What Big Boys Are Made of
by Cathy Donatiello, '52
Doree Denburg, Sr. 1, was married to Daniel Shapiro on March 3 at the Temple B'nai Jeshurun in Newark. Mr. Shapiro now lives in the U.S. Army. Doree is a member of Omega Phi Sorority.
Janet Wrigley, Sr. 5, was wed February 24 to Lt. Craig J. Jr., of the U.S. Air Force. Mr. Craig is now stationed in Alabama and his bride is planning to join him in June.
Janet Deinzer, Sr. 6, was engaged to Mr. Robert Brennan on December 21. Mr. Brennan is a senior at Rider College, Trenton. Janet is president of the Nu Theta Chi Sorority.
Carole Rohrben, Sr. 5, became engaged to Mr. Harold Mayor on January 28. Mr. Mayor is a resident of New York.
Hester Watson, Sr. 5, was engaged on December 28 to Lieut. William Farmer of the U.S. Air Force. The couple plan to be married on February 12.
Audrey Taylor, Sr. 5, was married on January 1, to Mr. Thomas L. Hawkins, jr. Mr. Hawkins is a reporter on the Newark Star Ledger. His college is the University of Virginia in New York. Audrey is president of Nu Sigma Tau Sorority.
Cassie Serra, Sr. 1, became engaged on March 6 to Mr. Thomas Seiffio of Maplewood. Mr. Selli is in the Medical Corps of the U.S. Army and is now stationed in the Far East. Betty is a member of Sigma Kappa Phi.
Carolyn O'Roerlic, Sr. 3, of K.P. 2, was engaged to Mr. Ronald Cornsini on February 24. Mr. Corno is a student at N.C.E. The couple honeymooned in Florida for two weeks.
Joan Levinson, Sr. 6, became engaged on February 29 to Mr. Jack Sharp. Mr. Sharp operates his own drug store in Ivy Hill. A June wedding is planned.
Barbara Caruso, Sr. 5, became engaged to Mr. Daniel E. Croney on December 22, 1951. Mr. Croney is employed at Westinghouse in Hillside. The couple now reside in Elizabeth.

Newmanites Plan Breakfast
The third annual communion breakfast of the Newman Club will be held on the campus of Glassboro State Teachers College on Sunday, April 27. The group will first attend the ten o'clock mass at St. Patrick's Cathedral. Dr. Francois Hammond, former head of the philosophy department at Seton Hall and new affiliated with the National Conference of Christians and Jews, will be the main speaker.
Assisting Louise Scouo and Pat Morse, co-chairmen, are Barbara Caruso, Yolanda Sansone, Blanche Rampichini, Colombia Nicastro, and Betty Hoehn on the program committee.
Ten other Newmanites are assisting Pat in the selection of the recipients of the John Henry Newman Honorary Awards to be presented at the breakfast.

All the colleges were divided into two huge teams the blue and gold, with each college represented on both teams. Entertainment by the students of the Newman Club is the day and refreshments were served by the galleys.
A wonderful afternoon was had by all and everyone is looking forward to next year's playday.

Socialites

Presenting... Miss Hanks

Did you know that in room 23, right here in the building, you can find one of the most complete sections of elementary social studies textbooks and state courses of study to be found in these parts? And, in many ways, this collection holds many materials that may not be found in the larger university libraries not too far away! This book, A Guide for the Teaching of Social Studies, is the result of a cooperative project put together through the diligence and perseverance of Miss Grace Hanks.

(Miss Hanks modestly insists that it is not "her" collection, that it belongs to the college, and that anyone is free to consult it at any time. It does have to be kept under lock and key, but she is very gracious about giving access to it."

A graduate of Montclair State Teachers College, the School of Education at Rutgers University, with an M.S. degree from the University of Pennsylvania, Miss Hanks taught and served as supervising principal in the Camden schools. She came to us from Glassboro State Teachers College four years ago and is a member of the social studies department here.

Geography is Miss Hanks' favorite subject both in and out of school. She is the author of True Stories of New Jersey, published by J. C. Winston Co. and Our Global World: A Brief Geography for the Air Age, published by Gregg Publishing Company. She is now on her third adventure in the literary field as co-author of a series of geography books for the elementary grades. The first book will be published this spring so watch for it!

Miss Hanks is quite an authority in her field. She serves as the consultant on geography of a committee which has recently published the American Geographer, member of the American Association of University Professors. She is at present working on her doctorate at Teachers College, Co.

Pettticoat Government

"Why did you break your engagement with that school teacher?"
"I didn't show up, one night, and she wanted me to bring a written excuse signed by my mother."

Shop Talk
by Tuny Saparito, '54
Dr. Frankson has formulated a plan for the future of the university and faculty staff will become more closely associated. This affinity will enable both to comprehend each other's point of view, and has regarding the curriculum and its possible revisions. A member of the faculty will be chosen from each LA. department and will meet monthly with members of the faculty staff, at which time departmental problems or particularly difficult cases will be discussed. Through the exchange of ideas it is hoped that student-teacher relationships will blend better in the future. It is certainly well for all of us to have a few individual thoughts along these lines.

More Hours for the Home Handyman

If you are having trouble drilling a hole accurately in a length of pipe or through a wooden or metal surface, try this: clamp a scrap piece of wood over the spot to be pierced and then punch through the metal or pipe. You will find that the wood holds the drill in position until it can be removed.

Here is a good method of cleaning clogged file teeth. Place a strip of surgical adhesive tape lengthwise along the file and down several times with your fingers pressing the tape into the file teeth; pull the tape loose. The loosened clogging will come away with the tape.

For safety's sake, label all bottles with stable labels. Here's a label that will stick to almost any surface, surgical adhesive tape. You can write on it with a soft lead pencil, waterproof ink, or better still, if you have a typewriter handy stick it on the roller, letter it in, and you have a label ready for use.

Outside activities engaged in by Miss Hanks include professional membership in the Association of American Geographers, membership in the National Council for Social Studies, and she is also a member of the American Association of University Professors. She is at present working on her doctorate at Teachers College, Co.

Besides her absorbing interest in geography, Miss Hanks brings to her classes a sympathetic understanding of the needs of the beginning teachers. Her infectious taste for knowledge and her helpful insight present to all of us a model to follow.
