Panelists for Leadership Clinic

Witherall, Bristol and Thomason Named To Faculty; Dickey New Dep't Head

The new college year begins with three replacements and one additon.

Mr. Dickey, new math department head, has as one of his objectives to improve or revitalize the courses of study in math offered here and to have and his department feel revision is needed.

His objectives in doing this are to develop competency in math in the student as a person and then to transform him into an able teacher of arithmetic.

Mr. Dickey has completed three years of graduate work at Teacher's College, Columbia University.

He has been a professor at Newark for more than twenty-three years.

The math department will be a 'closely knit' group of three members who will 'work cooperatively' together in the democratic spirit. Other members of this department are Dr. McMeen and Mrs. Jane Witherall.

Mr. Jane A. Witherall, a B.S. and M.A. honor student and graduate of Montclair State Teacher's College, became a teacher in the North Arlington School System at the age of nineteen! For six years she taught math to seventh and eighth grade classes, and was active as a guidance counselor.

Here, she teaches freshmen and sophomores general math and business arithmetic.

She has always been interested in testing programs and the diagnosis of difficulties in arithmetic, especially in preparation for the junior high school level.

Mrs. Witherall has been a church organist for many years, owns her own organ, and lists among her hobbies, knitting, crocheting, and photography.

Replacing Dr. Barrows in the 'English' department is Dr. Edwin Thomason, who received his A.B. degree from Wofford College, Spartanburg, S. Carolina. He did his graduate work at the University of North Carolina, Indiana University and Columbia University, earning his A. M. He received his B. Ed. from Teachers College, Columbia.

(Continued on Page 3)
A Good Beginning

The Reflector extends congratulations to the Student Organization for the intensive and early start that they have gotten off to by making the Student Organization an organization which is truly run by the student body. The Student Organization, under the capable leadership of Miss Hankins, has gone about doing this in many ways.

There has been great interest in the elections on the duties and obligations of the section delegates each student was prepared to elect his fellow student who was best suited for the job of section delegate. The tea for the newly elected delegates gave them a chance to personally meet the Student Organization, participate in a friendly, caring atmosphere. To each delegate fall a large number of duties which they will perform in the upcoming season.

The leadership program for club presidents and vice presidents will be the main event for the first meeting. The program is designed to give the students the proper tools and the benefit of her personal experience. Miss Hankins is more than a mere cliché - it works! How? Beauty is only skin deep, while warmth, joy, kindness, goodness, happiness, love - in short, of geography textbooks for children, the first volume of which has already been published.

Only Skin Deep

All right, so we aren't the best looking, even the second, third, or fourth best. Perhaps we're just plain homely. If we are, we were meant to be and all the wishing in the world won't change our general features. The thought that our actions, however, can and will change our appearance. Why? Well, we'll want to.

How? Beauty is only skin deep, while warmth, joy, kindness, goodness, happiness, love - in short, all the important things - come from inside us, finding their source in the "inner man" and spreading throughout all the Student Leadership will pervade throughout all the Student Organization.

The plans for the new college are well underway. The present freshmen were assured by Dr. Wilkins of being able to graduate from the new building. Because of the absence of Dean O'Brien, the 1953-54 Dean's Honor List was not announced.

Freshmen, Beware

Once again the freshmen will undergo the traditional trials during the first period, this year scheduled for Wednesday, Thursday, and Friday, September 30, October 1 and 2. Here at New State, the college and student organizations all us this time as "get-acquainted with the freshmen week." The class of 1957 received their caps, oakaki platters, and sheet music books. All the students are now waiting for the fervid period to begin. Wardens have been appointed to enforce all rules and nothing on Saturday was allowed. That was my slogan. On that rock was my education built.

Benchley's Rock

From the late Robert Benchley's essay, "What College Did To Me"

My college education was no haphazard affair. My course was all selected with a very definite aim in view, with a serious purpose in mind - no classes before eleven in the morning or after six in the evening, and nothing on Saturdays at all. That was my slogan. On that rock was my education built.

# I hope you don't have a trouble getting to know the students, Miss Jones. #
Mademoiselle Offers College Board Posts

This may be valuable information to students talented in any phase of the related fields. Mademoiselle magazine is offering an opportunity to get professional experience, cash prizes, and the thrill of seeing your name and work in print in a national magazine. Since 1939, this magazine has maintained a policy of working in close affiliation with colleges all over the country. To further this association, the editors have decided that of you who read the magazine may have noticed that the August issue was submitted, prepared for publication by college girls. College students interested in becoming a member of the College Board, write a 1900 word criticism of that issue, giving a broad criticism of the issue and a detailed criticism of the field that interests them most (such as fiction, features, art, etc.). They may also include an example of their work.

Then, on a separate page, write name, class, year, college and home addresses, major and minor subjects, extracurricular activities and summer jobs; in other words, any information that describes interests and talents.

All entries must be typewritten and must be submitted no later than November 30, 1953. Send entries to Miss Helen Dunbar, Mademoiselle Magazine, 575 Madison Avenue, New York 22, N. Y.

Out of the more than 1000 girls that apply from all over the country, 700 are chosen. These girls receive assignments for the months of January, February, and March, and are paid $75.00 and ten prizes of $9 each month for the best assignments.

The winners are notified and, at the end of the College Board period, the best 20 members of the College Board will be selected as the six college and four high school students who will serve as the guest editors for the month of June. These girls stay at a hotel in New York and work in their respective fields, on the August issue.

In addition to getting this invaluable experience, the girls meet top people in art, writing, and fashion, and have a mad whirl of parties and dinners. Many of the girls have been offered jobs; some of them are now well known in their fields because of this experience.

And who knows, you may be one of the lucky ones. Here's wishing you the best looking into.

Any interested may receive further information from the editor of the Reflector.

N.S.A. Congress

(Continued from page 1) The committee has been examining the resolutions that N.S.A. has been passing, subject them to criticism, and the resolutions have been sent to the student body for approval.

The congress had been preceded by the Student Body President's Report, where the student body was told about what resolutions took place on the floor of the Congress. The committee had been interested in the President's Report, because it has been the business of the Congress to pass resolutions which will be on file in the student body for future reference.

Meet Yolanda Sansone

Have you ever met an honest-to-goodness, genuine optimist? You haven't? If by chance this is possible, then by all means stop and reflect. Yolanda Sansone, Yolanda's cheerful and sincere nature, has probably been refreshing as a drop of nectar and much easier to obtain. As the newly elected president of the Young Adult Council, Yolanda Sansone is a very pleased and happy senior. She has been in the Newman Club as long as she has been at N.S. T.C, and has been thinking of "doing a good job" as president.

In her freshman year, Yolanda was in Norma and though no longer a member her interest in the Newman Club has not waned. One of the highlights of her sophomore studies was the career and discussion she had with Mr. Dowsen. Yolanda is one of the seven students who met with Mr. Dowsen in their free time and sat over cups of coffee airing their opinions and discussing a variety of problems and events. No doubt a grand time was had by all as group discussion is very satisfying and enjoyable (even though many shy students are included). During her junior year, Yolanda joined the Forum Club where the same type of discussion takes place more formally. Although Yolanda dislikes to walk, one of her main interests outside of college is the Girl Scouts. For two years now, she has been co-leader of the Girl Scouts at St. Mary's Orphanage where her love of children takes precedence over her reluctance toward hiking. Lately she has become very tolerant and perhaps soon will love to take long treks through the woods.

Meet Yolanda Sansone
Basketball Reviews

The 1953 baseball squad ended its season with a 4 and 7 record for an average of .363. The records, however, show that the story may have been different if Newark displayed a more effective defensive unit. In playing 11 games Newark's Tutors boasted the ball 42 times for an average of about 4 mis Q's per game. (I think that's some sort of record.)

Besides learning the cheers which the college uses each girl in the crowd is learning one original cheer which she has made up herself or has seen in high school or college.

After a lapse of a week or so each contestant performs the different cheers she has learned from a cheerleader beside the original cheer before a board of judges.

Mr. and Mrs. D'Angelo, Edith D'Angelo, Norah D'Angelo, and Raymond D'Angelo, being members of the Athletic Association, are on the panel. They decide who the lucky girls are that will award the letters.

The 1953-54 season will be printed in the next issue of the REFLCTOR.

Prelude in D Minus

Twinkle, twinkle little A
Far beyond my reach you stay,
In this physics I'm afraid,
You will never be my grade.
Twinkle, twinkle little A
You keep so far from me,
This petty test was a
You're really far away.

Glimmer, dimmer, little D
With you I can do without,
With you I can do without,
You're really far away.

Twinkle, twinkle little A
Blinding in our darks at night,
ill as you once did ease.
"For your books and cares away," "I'm afraid,
Twinkle, twinkle little A
You're really far away.
"I'm afraid,
Twinkle, twinkle little A
You're really far away.

The complete basketball schedule for the 1953-54 season will be printed in the next issue of the REFLCTOR.

Awards Given

Beginning in the academic year 1954-55, twelve Marshall Scholarships will be available for American graduate students wishing to study at a British university.

The Marshall Scholarships have been established by the British Government as a gesture of the thanks for Marshall Aid. Twelve scholarships will be granted annually, each for a two-year period. Eligible for competition are U.S. citizens, men and women under the age of 28, graduates of accredited U.S. colleges or universities. The scholarships may be held at any British university.

The value of each award will be $1,540 a year, with an extra $850 a year for married men. This sum will comfortably finance a student's entire course in any British university.

Qualifications for the award of the Marshall Scholarship are: intellectual and character; as shown by scholastic attainment and other activities. The awards of the scholarships are also distinguished by intellectual and character, as shown by scholastic attainment and other activities.

Under the terms of the awards, the student may take a course at any British university. The scholarships may be held at any British university, and earning costs are considerably less than in the United States. Transportation is provided by the British Government for the British university and back. Qualifications for the award are distinction of intellect and character, as shown by scholastic attainment and other activities.

The closing date for applications for the 1954-55 scholarships is November 1, 1953. For further information write to British Information Services, Marshall Scholarship Committee, 707 Madison Avenue, New York 22, N.Y.
