Students to Begin Tutoring Program

To enrich the lives of underprivileged children of Newark and Elizabeth; to voluntarily become a tutor of these children one day a week; and most of all, to be a friend to one child and encourage him in the area of education.

With these words, Miss Harriet Benjamin, a student at Newark State, outlined the goals of SCATE, the Student Committee for Advancement Through Education.

Miss Benjamin stated, "As students, we have begun this great work to help these children, but in the broadening of our own horizons as well. We will be gaining into the challenges of Elizabeth and Newark one night a week as a group to stimulate our moral growth and to give a positive demonstration even if they are having difficulties."

Mr. Bier, our faculty advisor, will give us the occasional helpful hint that students in the project itself need. Also, the school psychologist in Elizabeth and Newark have promised that the records and case histories of these youngsters will be available to us.

Eight students from Newark State went into the Elizabeth parish, as new names were written to and surveyed the need for this type of tutoring. They visited School 13 and Lafayette Junior High School. SCATE members, with the help of a student coordinator, have been in the process of writing letters to 125 volunteers and recruiting them for the program, which has been going on for the past couple of weeks.

On January 1, a new program was started. Student officers of the committee are: Joe who drives up, chief coordinator; Sue Perlis, "65, co-coordinator; Miss Mary Halpin, '65, recording secretary; Mary Kats, '65, corresponding secretary, and Rich Gelsomino, '66, treasurer.

On January 29, took the administration of the program, and on the 14, a new fresh face, while virtue is a good thing, and

Indian Educator To Speak Tomorrow

“Communism on India’s Doorstep” will be the subject of a lecture to be held at Newark State College, Union, by V. Shankar Rangarao, an Indian educator, social worker, and writer.

Miss Rangarao will speak to students and faculty at 1:30 P.M., in the gymnasium as the second lecturer in the college’s fifth year of “Kennedy Fund Lecture Series,” established by the New Jersey State Teachers’ Retirement System, the Kennedy Fund, and the World History Club of the College.

The following letter was written on November 19 by a CORE volunteer describing the senior’s work. "The Blues Roll On," is a series of civil rights will be discussed by a group of faculty members at Newark State College during a three-day period beginning November 19. The program, sponsored by the Congress of Racial Equality, will be the first major civil rights program to be held at the college.

The program will feature a series of civil rights seminars, panel discussions, and workshops. The topics to be covered will include the history of the civil rights movement, the role of the media in shaping public opinion, and the impact of civil rights on the economy.

The program will be open to the public, and admission will be free.

The program will be sponsored by the Congress of Racial Equality and the New Jersey State Teachers’ Retirement System.

The event will be held at the college’s main campus in Newark, New Jersey.

To the Editor,

I have come to the conclusion that there is a greater deal of misunderstanding exists relative to my position on race relations. Now while I believe that difference of opinion help to preserve our system of free government, I also believe misunderstandings must be clarified. In order to do this, I would like to place my emphasis on the following points.

1. I am a giant in the African American race. The fact that I am known as a giant in the African American race is not significant to me. What is significant is that I am a giant in the eyes of all people, not just those of my own race.

2. I am a giant in the African American race because I have always stood for the rights of all people, not just African Americans.

3. I have always stood for the rights of all people because I believe that the only way to achieve true equality is to treat all people as equals.

4. I believe that the only way to achieve true equality is to treat all people as equals because I have always believed in the idea of the American Dream.

5. The American Dream is the belief that anyone can achieve anything if they work hard enough.

6. I have always believed in the American Dream because I have always believed that anyone can achieve anything if they work hard enough.

7. I have always believed that anyone can achieve anything if they work hard enough because I have always believed in the idea of the American Dream.

8. I have always believed in the American Dream because I have always believed that anyone can achieve anything if they work hard enough.

9. I have always believed that anyone can achieve anything if they work hard enough because I have always believed in the idea of the American Dream.

10. I have always believed in the American Dream because I have always believed that anyone can achieve anything if they work hard enough.

A Grave Day

To the Editor,

November 22, 1963 was a grave day for our country, for on that day our leader, and friend of the people, John F. Kennedy was cut down by an assassin’s bullet. November 24 and 25 and the president’s body lay in the capital, making the people of the U.S. and other countries come and say their last goodbyes.

I arrived in Washington D.C. on the evening of November 24 and went straight to the capital building, which was illuminated at this time was a mere fifteen blocks long. I decided that I would take a look at the people who had gathered at the capital building for awhile before I got there to try to get a sense of what made the people there.

I stood outside for the time I got back, 1:00 A.M., the line was almost five miles long and still growing.

While walking at the capital no one could be seen walking with the shuffling of thousands of feet, and the faces of thousands of mourning people. Even the capital building with the bright lights had a great mournful hue.

The next morning at 8:30 A.M. the crowd at the Rotunda was dispersed and started to gather around the capitol plaza to wait for the funeral to start. The crowd was still quiet and as I saw people wrapped in blankets and newspapers, most of them waiting all night to pay their respects to their president. At 9:00 A.M., the heavy doors of the Rotunda were swung shut. There had a great respect on the crowd, some people cried, some were outwardly at Osvald, others just looked at them with silence.

At 10:30 A.M. Mrs. Kennedy arrived, with her two brothers-in-law to take her to her husband. As she started up the steps of the capital a jet bomber passed over the crowd and she stood in silence.

The funeral moved off the capital grounds, I drove goodbye to the “chief” in the form of a prayer and started the long lonely ride back to home and life. I.M.E.

Viewpoint On Sports

By Arnold Silverman

Newark State's first home basketball game of the season will be played in D'Angelo Gymnasium on December 4. The outcome of the game will be impossible to predict and should not overshadow the extreme importance of each student maintaining a sense of responsibility toward the rights and property of the college.

Newark State students are reminded that the NSC sports program has had a great deal of publicity centered on playing and those watching. There have been incidents in the past which have involved the sport. This is not good and is involved in the deterioration of the college itself.

Anything done by a student at any sports attraction is a direct reflection on the college and the people served in it. One man can be held by all and should be held but not by the expenses of others. Non-athletic students are just as apt to be smart enough to be quitely informed. As readiness is the quality of fools, rationality is the quality of the wise. I suspect the college student possesses the qualities of the latter.

WRESTLING MEETING HELD ON NSC CAMPUS

The first wrestling meeting in the history of Newark State College was held on Thursday, November 21, in the college gym. A wrestling team will definitely be formed and will be headed by Mr. Parakalo, a former wrestling coach at Arthur L. Johnson High School.

Approximately twelve college men attended the meeting. Most of them had had only high school wrestling experience, but according to Mr. Parakalo, this is not a necessity for participation on the team. The only thing that is necessary is that the men be physically fit and willing to give their best effort.

Practice has been in session since December 2nd and will be conducted five days a week. Each wrestler will be assigned a certain weight class. These classes include 123 lbs., 130 lbs., 137 lbs., 147 lbs., 157 lbs., 167 lbs., and unlimited or above 177 lbs. Most of the candidates so far are ranked in the upper high school classes. More men are needed who can wrestle in the lower weight classes and in experience is necessary.

Although wrestling is just beginning at Newark State it is one of the most popular of winter sports in many schools it ranks above basketball. The Rotunda would be a crowded attraction if wrestling were not an easy sport - one has only to go to any high school to go the nine minutes it takes for a match. But it is a worthwhile sport for both the male and female students, it should become an integral part of the NSC sport's program.

TAU HALTS CHI ON TOMASELLI'S PASSES

More than one hundred fifty cheers and shouting fans lined the sidewalks at athletic A. S. C. on Sarah Court on November 17, 1963. The Rotunda had been converted into a football field, and the football team was playing.

The Wahlers, Parakalo's first team, were playing Tau, the Rotunda's second team. At the end of the first half, Parakalo's team had a 12-9 lead.

The first half of the game was a hard fought defensive battle, each team repelling their opponent's line and smashing their way through the other team's defensive wall. The second half of the game proved to be an easy win for Parakalo's team. The Wahlers were not able to score after the first half.

The final score was 20-12 in favor of Parakalo's team. The Wahlers were not able to score after the first half.

The next game is scheduled for December 5th against Sigma Beta Tau in the college gym.

The Wahlers are looking forward to the next game against Sigma Beta Tau, and are hoping to improve their record to 2-0.

The Wahlers are looking forward to the next game against Sigma Beta Tau, and are hoping to improve their record to 2-0.
