Auditorium to Have Capacity of 1,000

The new auditorium presently under construction will be completed by Christmas, 1965, according to Robert Ellis, architect, and Perrantoni, Architects. The building will be completed by Christmas, 1965, according to Scrimenti, Swackhamer, Perrantoni Architects. They have designed all the buildings of the student body.

S.H.E. Research Discussed by NSA

Dr. Raths, who is nationally known for his studies in curriculum and instruction, plans to discuss the direction in which Newark State is heading in its development as an institution of higher learning. He declared that "a little disturbed about the colleges in the United States were distorted, and that the only way to keep people in the colleges is to look beyond the college gates, to higher goals, to be moved to action by events occurring on the campus itself."

Dr. Raths explained in a recent interview, "We are trying to make a "vital campus" at Newark State which will establish a "vital campus" in a place where students can go to the library there. One aspect of the center will be workshops for those interested in these workshops. Such a proposal will necessarily entail great financial resources and efforts, according to the president.

William Shiebler, as president of the Student Organization, will make the announcement of the Student Organization meeting at which Dr. Raths will speak. It will be the first Student Organization meeting at which a dean has been asked to speak. The new dean will explain his beliefs concerning the student's responsibility in terms of being an integral part of the college, along with his identity as a student. He expressed the opinion that in order to be considered an integral part of the college and the world, a person must not wait for the world to happen to him before responding. Rather, stated

Dr. Raths, Distinguished Service Professor of Education and Coordinator of Curriculum and Instruction at Newark State, will address the entire student body on Wednesday, December 9 at 2 p.m. in D'Angelo Gymnasium. According to William Shiebler, president of Student Organization, "This address by Dr. Raths, highlighting the first official meeting of Student Organization, will be a most important event and one which should prove significant and consequential toward the future of the college."

Dr. Raths declared that "a little disturbed about the colleges in the United States were distorted, and that the only way to keep people in the colleges is to look beyond the college gates, to higher goals, to be moved to action by events occurring on the campus itself."
Apathy Challenged

In the past, meetings of the assembled student body have had one main purpose — to introduce the student organization candidates and their platforms. At this point, student interest in the college usually runs high.

This interest, however, always ebbs as the year progresses. Many developments of and about the college, no matter how well reported by the student press, go unnoticed by the majority of the student body.

William Schiebler, president of the Student Organization, has initiated a new procedure to arouse student awareness in relevant college developments. I share their attitude, and therefore applaud the idea, "each student is an integral part of the college and whatever affects this institution is directly affects the members of the community."

As responsible students we should take advantage of this attempt to animate interest in this college. I commend Mr. Schiebler for this endeavor and solicit the support of the entire student body.

P.J.M.

Thanksgiving

On this long-enshrined holiday of Thanksgiving, it is traditional for speakers from the pulpit, community leaders, editors, and the like to enumerate our blessings from the On High, or wherever, and exhort us to be grateful and give thanks.

No slightly warmed-over human being can really disagree with this, least of all not in the plentiful United States (excluding the 35 million who are really disagrees with this, because they are the objects of a declaration of war); but yet, even on these days of thanks, it is entirely germane to ask — thanks for what?! For the bomb? For squash poverty? Its concomitant, wracking hunger? For distorting, altering, or disconnecting our minds, for the purposes of distorting, altering, or disconnecting our minds. Thanks. D.J.K.

Apathy Challenged

A last source of concern stems from the many implications for the future of education, which Mr. Fuller discussed. A radically different world future would be propelled as the result of many factors, regardless of the exact characteristics which might determine future intonation, be it Mr. Fuller’s connotations or his. It does not seem apparent that the rapid changes in the technology of communication and the transitory decision based on the part of the national educational establishment. If these disturbances, demographic and social, continue to affect our educational establishment, the level of comprehensive understanding and educational skills will continue to improve. This is an area in which we can only expect to perpetuate and an area in which we can only expect to perpetuate. The intellectual construction of the present generation is to develop and to develop and to develop and to develop. This generation of students is to develop and to develop and to develop and to develop. This generation of students is to develop and to develop and to develop and to develop.

At one time.

Barbara Green — Carol Jaczina

THE COLLEGE FRATERNITY...

The beauty of the involved exchange is that it is a comprehensive understanding of the two things. This is a comprehensive understanding of the two things. There is no comprehensive understanding of the two things. There is no comprehensive understanding of the two things.

We will again replace the impression that it is not. It is not. It is not.

Review:

"Outward Bound"

By Linda Feldman

The production of "Outward Bound" was produced by the Newark State Opera Guild under the direction of David Lawrence, and was presented at the The Little Theater on November 15 and 16. The production was artfully staged and marked as a high point in the history of the Guild for three reasons.

First, and perhaps most nota
tible, was the extraordinary and intense performance given by the star cast. The play, "Outward Bound," was written by Robert E. Sherwood, and is a study of the life of a man named John Hunton, who was the first to attempt to cross the Atlantic Ocean by air. The production was directed by David Lawrence, and was a great success, with the cast performing with great skill and intensity.

Second, the production was well-received by the audience, and was given a standing ovation at the end of the performance. The audience was captivated by the performances, and the production received glowing reviews from the critics.

Third, the production was a great financial success, and was able to pay for itself and provide a profit for the Guild. This was due in part to the excellent acting, and in part to the well-staged production.

In conclusion, "Outward Bound" was a great success for the Newark State Opera Guild, and it is a testament to the skills and talents of the performers and the director.

Carnival Report

By John Glick

Those organizations which do not come under Student Council are required to contribute twenty-five dollars to the twenty-five dollar bond with the I.F.S.C. for the operation of the Carnival. This is to insure that the Carnival will pay for itself, and to make the organization self-supporting. This has become a new contract which will be required of all organizations running the Carnival. This contract will provide an excellent environment for the fraternities and sororities, properly supervised, for young men and women to develop their finer qualities in a whole-carnival experience.

A note of the Metropolitan Opera Association, which has set a new standard in artistic and educational projects, will be presented at the conference. This will be a great opportunity for the students to learn about the Metropolitan Opera and its work.

The conference was held at the University of Pennsylvania, and was attended by many of the leading feminine organizations in the country. The conference was a great success, and the students were able to learn a great deal about the different organizations and their work.

In conclusion, the conference was a great success, and the students were able to learn a great deal about the different organizations and their work.

NSC On View in Atlantic City

Freshly taken views of the college were an important part of the exhibit booth in Convention Hall, which is located on the first floor of Convention Hall.

The slide show at the exhibit, entitled "NSC in '62," was produced by the Newark State College. This project was produced by the creative students of the campus, who worked hard to produce an exhibit that would be of interest to all visitors.

The exhibit was well-received, and the students were able to show off their hard work and creativity. The exhibit was a great success, and the students were able to learn a great deal about the different organizations and their work.

In conclusion, the exhibit was a great success, and the students were able to learn a great deal about the different organizations and their work.
Co-op Plans Changes in Service Desk

SOUND SYSTEM

A new sound system for the college center has been in the planning stages for the past year and is now under construction. The system, which has been donated to Mr. Clifford Jahn, professor of Industrial Arts, Mr. Jahn said the technical detail of the system should be completed by early January and that the system should be in operation by February 1 at the latest. This sound system will be completely new and will consist of speaker and microphone jacks in the cafeteria and the snack bar. The College Center is the prime target of the music played on the turntables during the school day.

The cafeteria and snack bar will still be required to supply music for the other rooms of each other and, therefore, couldn't allow for the usual special degree of flexibility. The whole system will be put to excellent use during the socials held at the College Center. The microphones will even be used to present a faithed reproduction of the music played on the turntables. This will be the prime target of the presenter and the key to the system's success.

The Curriculum Committee, among other things, has initiated the following recommendations:

1. Suggested that the system be installed in the Information-Service Desk, and that it be centrally controlled by the Information-Service Desk.

2. The presentation is scheduled to be undertaken in the near future.

PEOPLE TO PEOPLE

(Continued from Page 4)

cate the administration.

There is further elaboration of the administration:

1. First-year program: the programming relationships more than any other, was mentioned as a problem area.

2. Peer: it was evident that another group of students, the so-called "quick backer" was operating behind a big, brazen line, ground out, two touchdowns and shut out Chi, 14-0, holding them to a single first down.

3. Consideration for room assignments: the system is being constructed under the oversight ofrooms assigned to the Negro families in Mississippi.

4. Means of Transport:

- A new system was recommended to the board of education that by using the knowledge of a group organized in the field of world design is possible. Using the information of the powers of the sea in relation to transportation and resources of the land, Mr. Fuller asserted that "doing more with less" was the key to the problem of the future.

5. Foreign Student Committee

- The committee's main concern is on the core of students. The people who wish to, have been given the opportunity to join the exchange students togetherness, and an announcement will be made to the campus.

6. Foreign Students in our Campus

- 1. Schools foreign students should be encouraged to participate in all of our governmental, social, cultural, and athletic activities. There should be a special room for all parties involved.

2. The program should be shown in every aspect of American life: our students, our foreign students on our Executive Board. It should be adequately financed, and every aspect of a foreign student progam.

FOREIGN STUDENTS IN OUR CAMPUS

1. Foreign students should be encouraged to participate in all of our governmental, social, cultural, and athletic activities. There should be a special room for all parties involved.

2. The program should be shown in every aspect of American life: our students, our foreign students on our Executive Board. It should be adequately financed, and every aspect of a foreign student program.

ECONOMIC AWARENESS

This could be by showing the "cost of freedom". The students have the opportunity to see the economic awareness of the American system. The clothing will be sent to the Technology Department, and the "cost of freedom" will be exposed to the students.

PEOPLE TO PEOPLE

This section of the report leaves out a great deal of the scope of people to people. It is simply to give you some idea of the activities.

1. Travel - People to people of the conference in English and education will be present for faculty consideration, and an announcement will be made of experimental program in general areas.

The Curriculum Committee is composed of ten members.

1. Jane Gruen, chairman, was selected to guide the committee.

The other members include Miss Mary E. Cobb, Mr. Richard Mark, Mr. J. E. Raifsnider, Miss Verna Ward, Mr. Nathan Wets, Dr. William H. Young, Miss Irene Ing, Mr. Douglas Ra, and others.

The committee has been designated as an experimental committee since last year. It is the only committee of the administration who have asked to have permission of the board to continue the curriculum if the revisions do not involve certification, additional money, addition of new faculty, or new programs.

Dr. Gruen stated that the Curriculum Committee would continue to meet and continue to work on the curriculum.

TOWNSEND LECTURE

Edward Zoll, Mr. Willard Freedman, Dr. Vance Snyder, Mr. David Royce, Miss Kathleen Eckhart, Miss Dorothy Vining, Sue Perlgut, Joe Chroback and Jim Masterson at Sing for Freedom. It was Mr. Fuller said that in our "economic awareness" the student will have the responsibility to look into the price of having it become an eyesore, or to keep the problem of looking at the price of having it become an eyesore.

The people who wish to, have been given the opportunity to join the exchange students togetherness, and an announcement will be made to the campus.

VARSITY CHEERLEADERS lead crowd in vocal support for the Squires.

Newark State College experienced its first pep rally last Tuesday in the Snack bar of the Student Center. Tony Martino made the introductions and made some comments to arouse school spirit.

Mr. Sullivan introduced his new assistant coach, Mr. Sekella. The basketball team was introduced and a cheer was given for each player by a cheerleader. PanGRAMA, captain of the cheerleading, introduced the varsity cheerleaders. She then proceeded to introduce Alice Karmmeyer who is the captain of the JV squad. The JV cheerleaders, who did not participate in the program, were introduced from the places on the side by Captain Karmmeyer.

The program terminated with a fine exhibition of cheering by the varsity squad.

DANCE THEATER held its first show on Friday night. The purpose of bringing in the theater was to offer the New York area an opportunity to see the latest in modern dance. Those who attended the show were impressed with the talent of the performers.

The basketball team was introduced and a cheer was given for each player by a cheerleader. PanGRAMA, captain of the cheerleading, introduced the varsity cheerleaders. She then proceeded to introduce Alice Karmmeyer who is the captain of the JV squad. The JV cheerleaders, who did not participate in the program, were introduced from the places on the side by Captain Karmmeyer.

The program terminated with a fine exhibition of cheering by the varsity squad.

On Wednesday, November 18, at 7:00, fourteen teams competed in the annual Women's Elimination Volleyball Tournament. For the second consecutive year, Kappa Epsilon Sorority introduced the team by a cheer of 21 to 13 in the final exciting game with Alpha Chi Sigma. Other teams which reached the semi-finals were Alpha Epsilon Sigma, Kappa Epsilon Sigma, Delta Sigma Pi, Nu Theta Chi, Iho Theta Tau, Newman Club, Beta Delta Chi, Sigma Kappa Phi, and Lambda Chi Eta.

Two weeks ago the competitive spirit of Newark State's women was clear and true. As evidenced by the tournament, which was the most competitive thus far, the organizations put forth their greatest effort to win. They showed great spirit, sportsmanship, and teamwork.

The winning team gets their organization's name engraved on a trophy, but this did not appear to be the reason for everyone's concerted effort. Indeed, such support was a championship game every time.

TAU JUGGERNAUT (Continued from Page 1)5

Tau Juggernaut, after Interfraternity were traded by Chi's Graves and Tau's dominating back, Lester Roman, bagged the ball and+=了他的 third straight night. In the first quarter, Chi's Tomeselli flipped passes to sure-handed Jim Baldelli. He ran the explosive Tomeselli-Kennedy combination to the outside for a touchdown.

The first half was a hard fought one with neither team able to score.

In the second half, the Tau Juggernauts showed their full potential. They used their strength and speed to score two touchdowns. The first was scored by Tomeselli on a 14-yard run. The second was scored by Graves on a 24-yard pass from Baldelli.

The final score was 14-0. The Tau Juggernauts had a definite and positive effect on the game. They showed great spirit, sportsmanship, and teamwork.

The winning team gets their organization's name engraved on a trophy, but this did not appear to be the reason for everyone's concerted effort. Indeed, such support was a championship game every time.

FURTHER information may be obtained through the Sports Information Office in the Center for College Athletics.

SUPPORT THE SQUIRES

STU. CO. ELECTIONS

Campaign dates will be from Dec. 7 to Dec. 9. The primary election is set for Dec. 14.

Further information may be obtained at the offices of the Doctorate of Interfraternity Co-4erage Office in the Center for College Athletics.
