**For students who have given permission for their reports to be shared

The Retention Management System Plus consists of three assessments; the College Student Inventory (CSI), Mid-Year Student Assessment (MYSA) and the Second-Year Student Assessment (SYSA). These three instruments were introduced at Kean University in 2019 and administered to specific populations of students and helps us better understand individual and community motivations and receptivity to support services. As a result of this data, we can: 1. Assess our needs at Kean University 2. Develop a high-impact completion plan 3. Connect students to campus resources
