POLICIES AND PROCEDURES

In the Office of Residential Student Services, we strongly believe that every experience in a student's life can be educational. A student's education at the University is not limited to an expansion of his or her academic knowledge, but should include the development of an appropriate moral and ethical code that allows him or her to function properly in society. Furthermore, a student's education should include an awareness of his or her responsibilities to others and how he or she is cognizant of his or her status as a member of a social group and how to live within the rules necessary for proper functioning of that and other groups in society. The policies listed here are written as prohibitions; that is, they are stated as behavior that is prohibited in all residence halls, buildings and grounds. These policies are enforced through the Office of Residential Student Services and can be found in the [Resident Student Handbook](#).
